

MARKET REPORT

Zucchini

The run of zucchini at 75¢ is slowly tightening up. We predict once we start on Carnarvon zucchini, new season pricing will be up to 95¢.

Royal blue

Due to heavy rains, tractors haven't been able to get into the paddocks without getting bogged, because of this growers pulling out 50% less. Prices will go up 20¢ per kilo for premium sizes.

Persimmons

HARD persimmons (FUYU) from local grower packed in 10kg boxes 95¢ each.

Broad beans

At the end of the season. Prices are going up, only 2 growers left. Currently we are on \$3/kg, next week our price is \$4/kg.

Bananas

Influx of premium Queensland extra large bananas, both backward or full colour \$1.95/kg.

Blueberries

Our local Albany grower has started his season, supplying us direct off the farm. Blueberries are down to \$1.95 a punnet for the next 10 weeks.

Over-supply

Granny Smith Juicing apples, firm clean juicy Granny Smith apples. 75¢/kg.
Local Valencia/kg.

Warning

Heavy rain and hail has damaged lots of our soft leaf products. Most noticeable being English Spinach, Silverbeet, Spring Onions and Gourmet Lettuce.

To compensate for this we are sourcing produce from the east daily. We recommend lemons from the river land SA, as local lemons seem to be thick-skinned and dry.

Belotti beans, butter beans are in high demand from the east coast forcing prices up.
