PURPLE CORN

SOUTHWEST FIGS

LYCHEE

DONUT NECTARINES

PADRON PEPPERS

ROCKMELON

## PRODUCE NEWS

**Lemons:** USA and Egyptian fruits available with pricing over \$10 for premium fruit.

**Limes:** Limes are in short supply and with the demand through the warmer months. Pricing has increased and availability is back on track.

**Asparagus:** Torbay Asparagus is now finished. Mexican asparagus now available.

**Tomatoes:** Local tomatoes have already started, and supply is strong. Heirloom tomatoes are now beautiful for your summer dishes.

**Leaf lines:** Understand the weather is warming up, which means the soil will be 20% hotter. Growers will only be able to water between 8pm and 5am. Any watering after this time will cook the veggies in the ground. Please understand we cannot see inside the core of the vegetable, and it's expected to have inner core damage from heat stress. Please support the grower during these testing times and be patient while working with us as these issues purely from nature and out of our hands. This issue will also occur with soft herbs, which also don't handle the heat well.

**Radicchio & Witlof:** Only one grower growing radicchio in WA. He has a very small farm and already experiencing difficulties in supply. This will only get worst. We suggest removing radicchio from your menu to prevent issues during the summer months.

**Oranges:** Very short in supply coming from Harvey.

**Jerusalem Artichoke:** Season has ended, we have purchased in bulk so you can order them, try to have them off the menu by January.

**Beans:** Broad Beans, Flat beans, Borlotti beans, Pea's season is now finished. Only green beans available.

**Apricots:** Season is now finishing; we suggest start removing it from your menu and replacing it with other stone fruits.
