WHITE ASPARAGUS

GUAVA

CAULINI

! MARKET UPDATE !

- Queensland Flooding:** Recent flooding in Queensland has significantly affected transportation and logistics, leading to delays. We are actively working on mitigation strategies and have been informed that we can expect a return to normal operations within two to three weeks. We appreciate your patience and understanding as we navigate through these challenges.
- Transport Delays:** The aftermath of the floods has led to considerable transport delays due to damaged infrastructure and disrupted schedules. We have been informed that operations will be back to normal within the next two weeks.
- Heatwave Impact:** The ongoing heatwave has had a noticeable effect on our stock, with two more weeks expected before we can transition to harvesting new, unaffected crops. We are closely monitoring the situation and implementing necessary adjustments to minimize impact and ensure the quality of our produce.
- Adelaide Quarantine and Bug Issues:** We are currently facing quarantine challenges due to bug issues in Adelaide, which prevent us from importing produce into Western Australia without fumigation. This measure, while necessary, unfortunately reduces the quality and shelf life of our produce. We are in discussions with relevant authorities and hope to find a resolution that will allow us to resume normal import activities without compromising the quality of our products.

We want to assure all our partners and customers that we are doing everything within our power to address these issues promptly and efficiently.

Our team is dedicated to maintaining open communication and transparency as we work towards resolving these challenges. Your support and understanding during this period are invaluable to us.

We will continue to provide updates as new information becomes available. For any immediate concerns or inquiries, please do not hesitate to contact us directly.

Thank you for your continued partnership and trust in us.

PRODUCE NEWS

Lettuce & Green Cabbage: Short supply due to heat damage

Tomatoes: Heirloom tomatoes will be back from next week, still limited. If not available we will substitute with No1 tomato, medley and kumato.

Oranges: Oranges are coming from overseas, hence the price is rising and quantity is very limited. We are about 4 weeks away from getting local.

Strawberries: Limited supply and quality is affected due to heat.

OUT OF SEASON:
